SAFER, FASTER, STRONGER

SAFE DC 24V POWER

Lake Lifter's new DC motor & solar kit for 4-post boat lifts is safer, faster, & stronger than traditional AC powered lifts. Complete plug-n-play package provides quick & easy installation by contractor or consumer.

Eliminate expensive electrical runs and convert your boat lift to safer solar power!

Simple Wireless + Manual Controls

- Voltage indicators
- 2-Motor leveling
- Lighted switches
- LED light output
- Key fob leveling

SAFER, FASTER, STRONGER

Safe 24v DC power eliminates electrical shock hazards around the dock. No long electrical runs or voltage loss problems.

At 2800rpms these motors are faster, stronger, and safer than high voltage motors

Salt Water:

316 Stainless Marine Grade IP 68 Motor

Fresh Water:
Epoxy Coated Marine Grade IP 68 Motor

COMPLETE KITS

We make solar easy! High performance DC-motors, controls, wiring, solar panels, charge regulators, and battery boxes.

Meets NEW boat dock and lift shoreline power regulations.

NO Electrical Inspections

NO AC-Power Permits

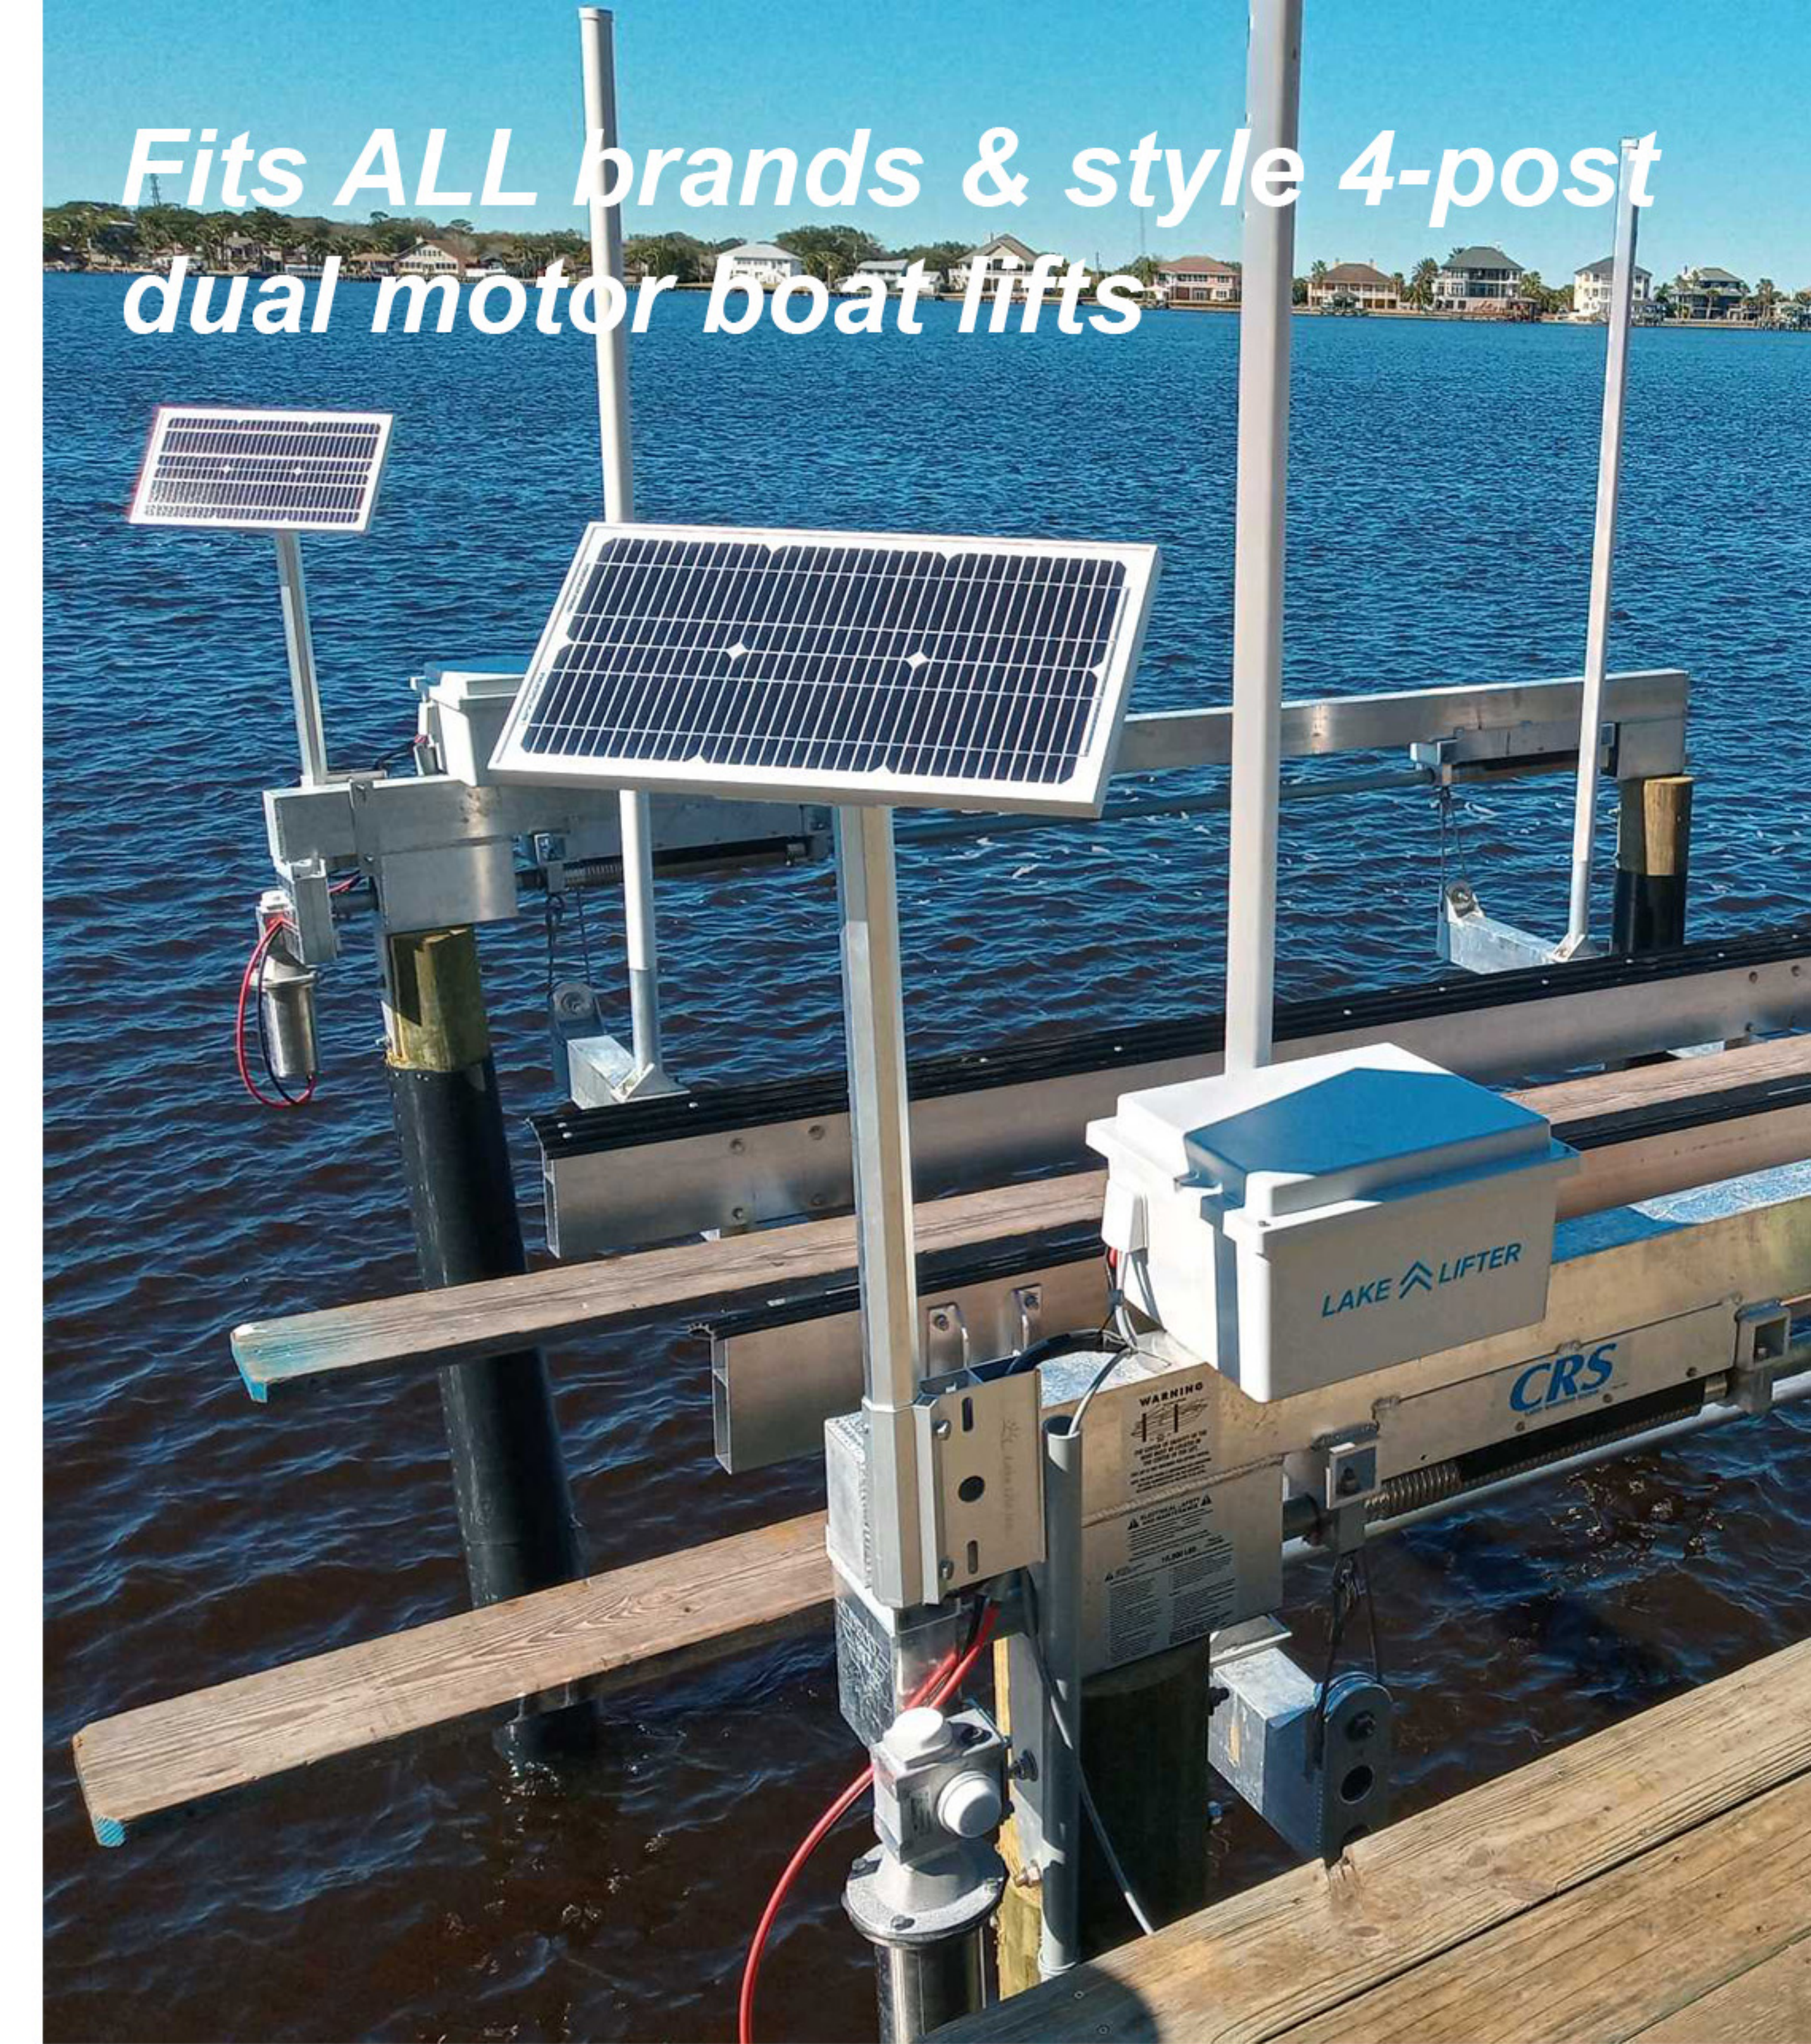

NO dangerous inverters, high voltage or grounding rod requirements.

Motor Controls & Limit Switches

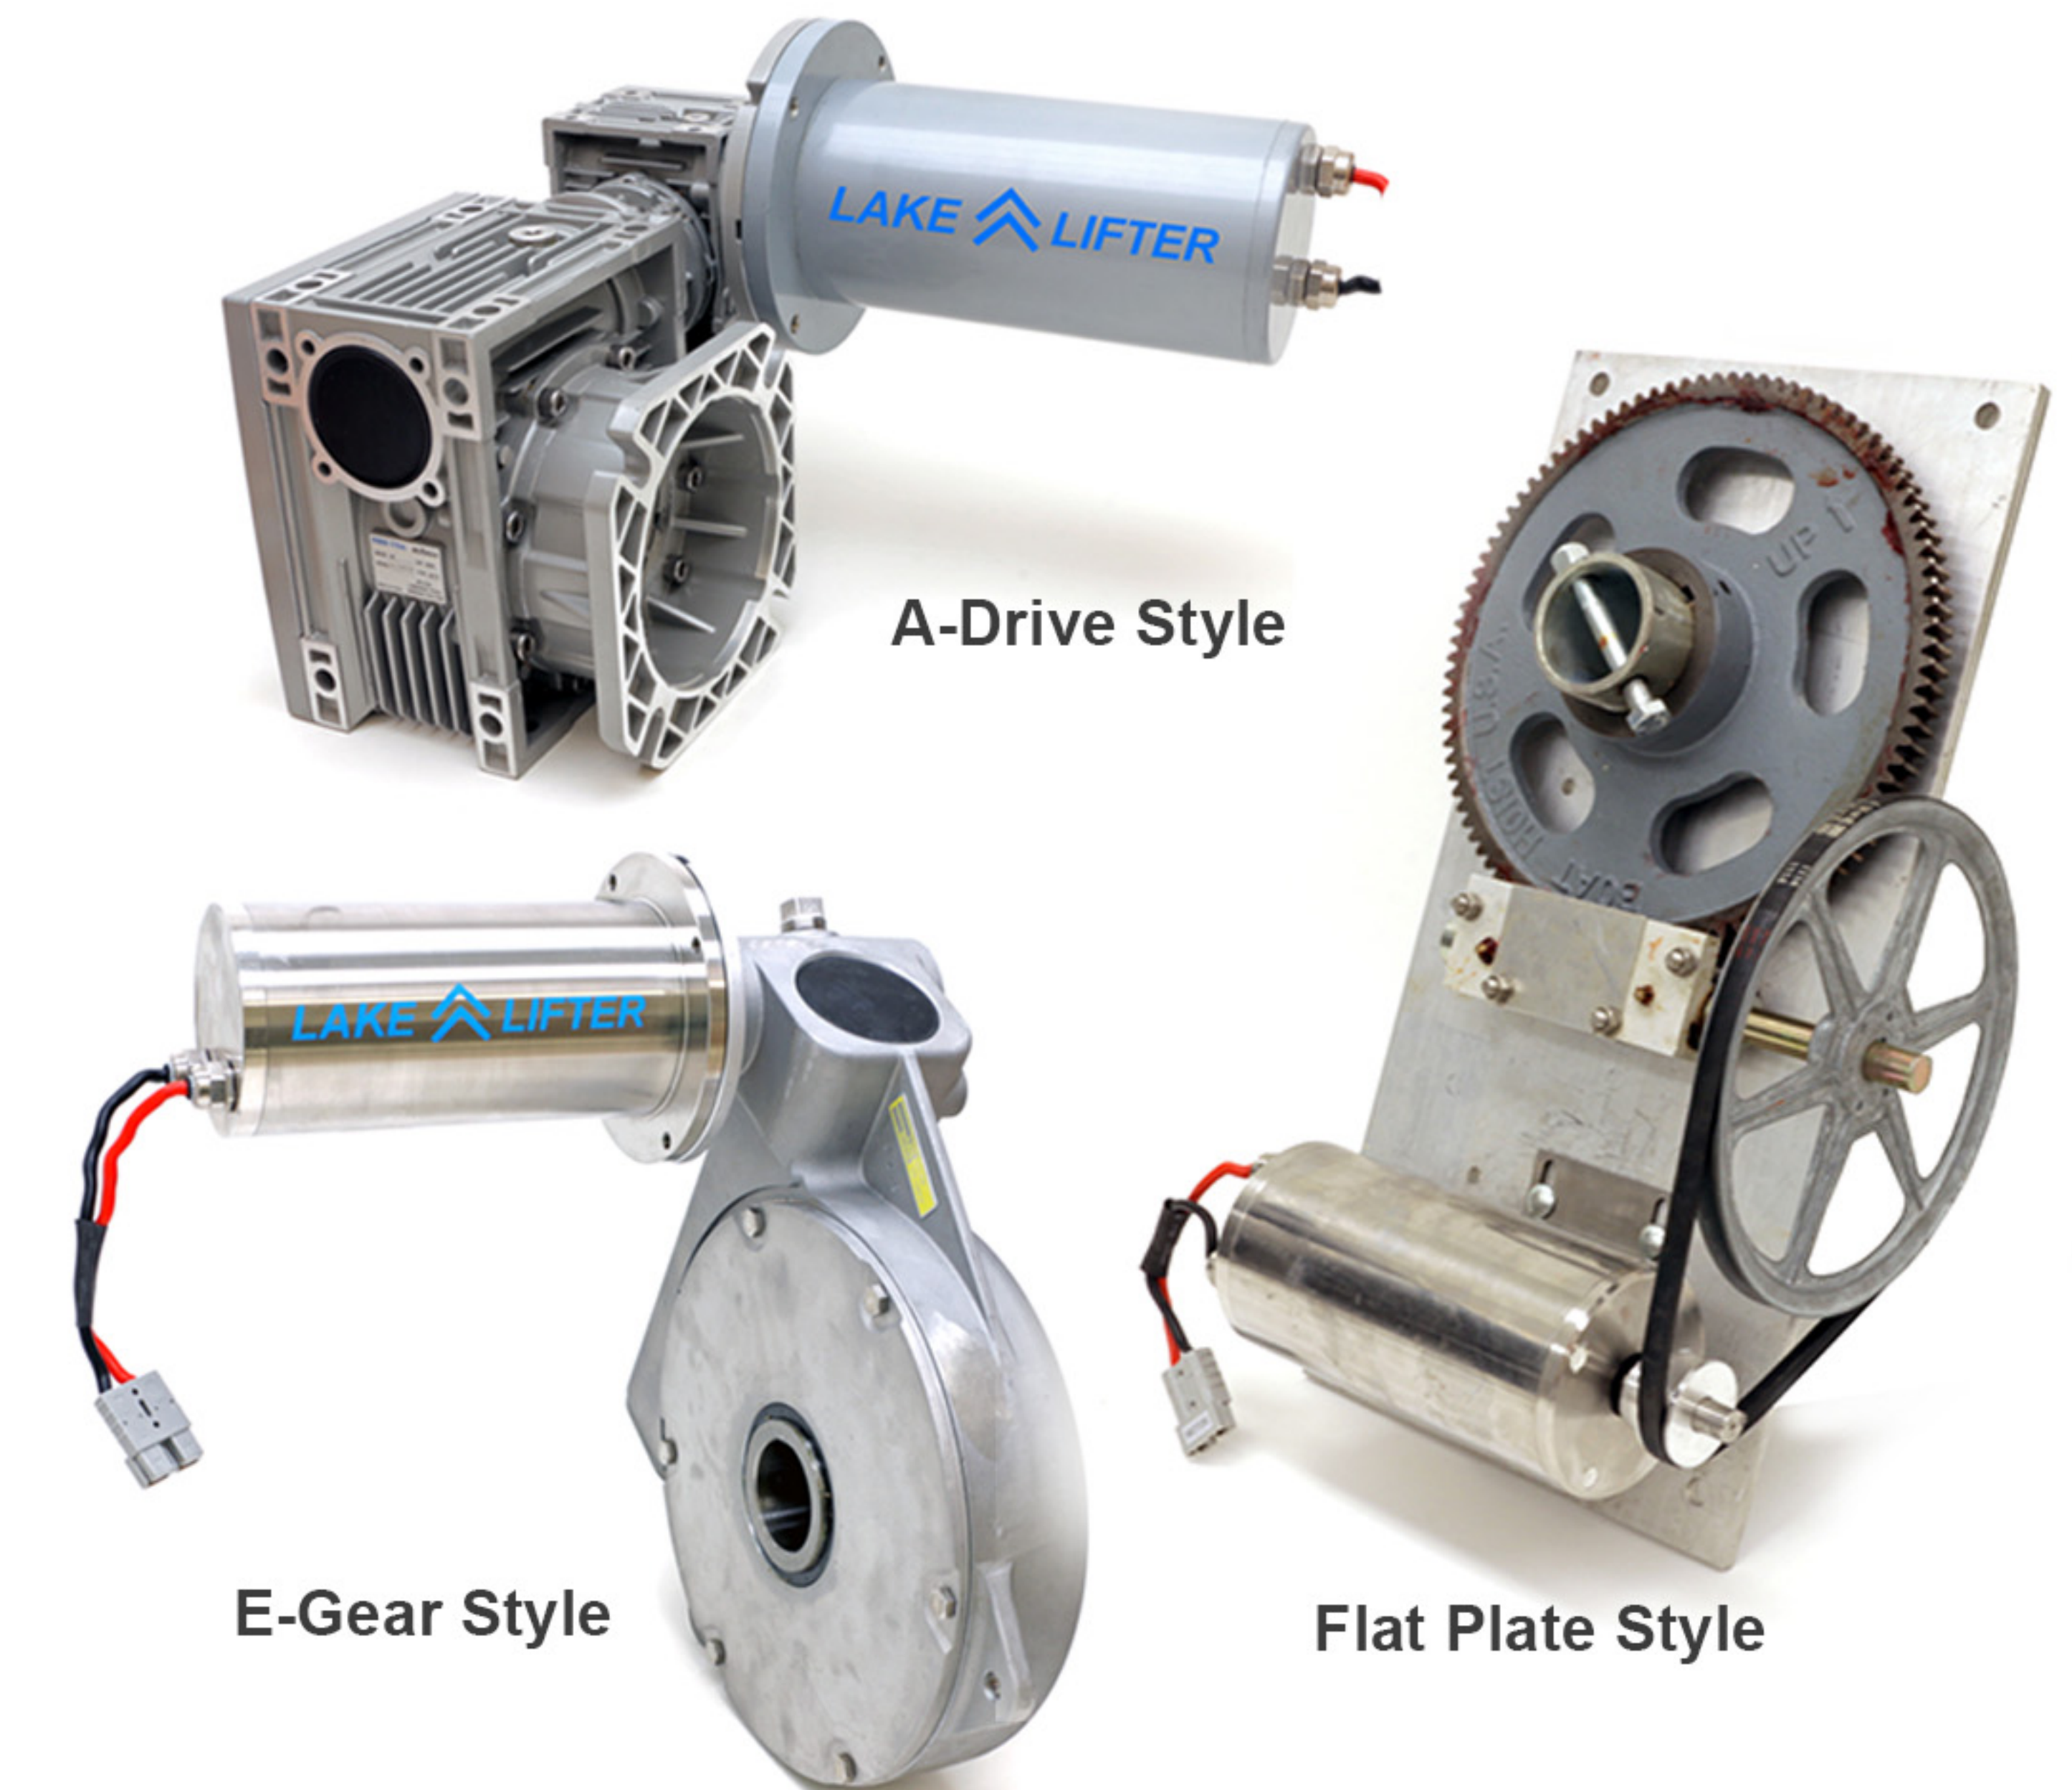

Integrated motor overload protection, reverse wiring protection, and pre-wired to accept spring or rotary limit switches.

Fits ALL brands & style 4-post dual motor boat lifts

FITS ALL GEARBOXES & PLATES

Our DC marine grade motors fit all styles & brand gearboxes: A-Drives, E-Gears, Sea Drive, Flat Plates / Gear Plates.
